Declassified in Part - Sanitized Copy Approved for Release 2012/07/18 : CIA-RDP83-00415R009800120001-9

Declassified in Part - Sanitized Copy Approved for Release 2012/07/18 : CIA-RDP83-00415R009800120001-9

A large building is under construction, 200 meters in length, 30 meters in width and 20 meters in height, in concrete.
It will be used for the construction of ships.

A warehouse was recently completed, in concrete, with 4 stories; machinery and parts for the production of the foundry are stored there.

The buildings which are described above were or are being constructed without any effort to economize on material.

D)- Economic Information

1) Agriculture

March 1951 — Agricultural concern of the "KRSTULOVAC" enterprises — SINJ

The enterprise of the "KRSTULOVAC" shipyards manages some agricultural concerns in the vicinity of the locality indicated in the margin.
It manages land cultivated (corn and potatoes) and pastures where cattle is raised.
The yield of the concern is small: especially the result of cattle raising is bad, because of lack of pastures and fodder.
The concerns did not give any profit to the workers of the enterprise as promised to them.

2) Industries

March 1951 — Synthetic rubber factory "JUGOVINIL" — SPALATO Zone

Located 50-60 meters west of the GOMILICA (SPALATO [redacted] - SUCURAC (SPALATO [redacted] highway. 50X1-HUM 50X1-HUM

Declassified in Part - Sanitized Copy Approved for Release 2012/07/18 : CIA-RDP83-00415R009800120001-9

Declassified in Part - Sanitized Copy Approved for Release 2012/07/18 : CIA-RDP83-00415R009800120001-9

It consists of about 10 buildings interconnected by gangways.

The factory was just completed and is equipped with modern machinery.

The production has not been ascertained, since operations just started.

Works for the construction of housing for the managers and workers is under way.

The plant is managed by a German engineer.

The factory has a railroad siding.

March 1951

Cement factory of . . . . . SPALATO Salone

Comprises 3 buildings, located in the outskirts of the locality indicated ~~in the margin~~ above, about 30 meters from the railroad line to SINJ.

The buildings were started in 1949 and completed in 1950.

50X1-HUM

March 1951

Factory for concrete poles for power lines SALONA

Produces reinforced concrete poles, 9-10 meters high, and concrete railroad ties.

The output of ties is very limited.

50X1-HUM
